## NEWS

(FOR IMMEDIATE RELEASE)

### **Total Lab Care's Laboratory Essentials Course has been approved for P.A.C.E.® CEU Credits**

**Lincoln, RI. (June 1, 2015),** Total Lab Care (TLC), an ELITechGroup specialized consultant provider for Physician Office Laboratories (POLs) announces that its Laboratory Essentials Course has been approved for 3.5 hours of P.A.C.E. continuing education credits. Course participants will learn or refresh their memory on the basics of the clinical laboratory in a self-paced environment. This web-based interactive training program, comprised of 10 individual lessons, reviews CLIA rules and regulations and laboratory operations from pre-analytical to post-analytical processes including laboratory testing requirements (i.e. pipetting, safety, equipment operation, etc.).

The Laboratory Essentials course is available to current and new ELITechGroup customers and is just one example of ELITech's commitment to help laboratories that operate closer to the patient. Todd Proud, Director of TLC, says "The Laboratory Essentials course has been very well received by all participants and has assisted new and seasoned laboratory professionals in increasing their knowledge of the clinical laboratory. It now has the added benefit of the P.A.C.E. continuing education credits to help participants satisfy continuing education requirements for federal regulations, state licensure, certification agencies and employers."
